Software Engineer - Job Offer

Position: Software Engineer

Location: Remote / On-Site

Employment Type: Full-Time

About the Role:

We are looking for a talented Software Engineer to join our team. The ideal candidate should have a strong background in software development and experience working with modern programming languages, cloud technologies, and machine learning frameworks.

Required Skills:

Candidates must have proficiency in the following technologies:

Python, C++, SQL, Docker, Linux, Git

Experience in Machine Learning and Deep Learning

Strong knowledge of Natural Language Processing (NLP)

Familiarity with Cloud Computing and deployment strategies

Required Experience:

The ideal candidate should have experience in:

Developing scalable applications using Python and C++

Optimizing database queries using SQL

Deploying and managing applications with Docker

Maintaining and configuring Linux servers

Collaborating with teams using Git for version control

Implementing and training Machine Learning models

Working with NLP models for text processing

Managing cloud infrastructure for AI deployments

Preferred Qualifications:

Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field.

At least 2+ years of experience in software engineering or related fields.

Experience with container orchestration (Kubernetes is a plus).

Ability to work in a fast-paced, team-oriented environment.

Why Join Us?

Opportunity to work on cutting-edge AI and cloud projects.

Competitive salary and benefits package.

Flexible work arrangements and a collaborative environment.

How to Apply:

Submit your resume and cover letter via our careers portal. We look forward to hearing from you!
